

“The Open Boat” One Pager

Now that we have finished reading the open boat, instead of answering critical reading questions, we are going to create a one-pager for the short story. A one-pager is a visual representation of different aspects of the story. You can be as creative as you like, however you must include at least FOUR of the following:

1. Sketch one piece of imagery that represents the text's theme
2. Write out two quotations that are important to the theme of determination and survival
3. Include a sketch and a sentence that represents the setting of the story
4. Make connections between the text and current events
5. Examine one or two main characters and their development throughout the story
6. Identify three symbols through sketches or text
7. Include a statement about a personal connection you can make to the text
